BRYAN IS THE MAN.

At Jackson, Miss, Sunday, Congressman Champ Clark said:

"Nothing short of death can prevent Bryan from being the next democratic nominee and nothing but the intervention of the Almighty will keep him from being elected."

"Democratic chances of success have improved fully 50 per cent in the past four months and are now brighter than they have been in any presidential campaign in the past twenty years. It is practically settled that at the party platform will be, and it may be outlined as follows: Re-enactment of the Chicago platform. Declaration against expansion; strong plank against the trusts and other forms of oppression; opposition to a large standing army and advocacy of economy in public expense."

Even the most partisan republicans realize that the principles of the Chicago platform are stronger today than they were in 1896. And the republican press is to be thanked for keeping Hon. W. J. Bryan and the silver issue prominent. Thanks to the republican papers the re-nomination of Mr. Bryan is assured.

The St. Louis Globe-Democrat has been making a study of the kissing bug, and says: "What is called the kissing bug is found to be an old acquaintance and not a new comer, from the Philippines. Scientists at Anheuser confirm its imposing name of Melanolestes picipes, but it belongs to the squash bug family, and is widely distributed in the United States, especially in the south and west. It is black, tinged with red, with shining wings, is somewhat hairy, and over half an inch long. Unless roughly handled it is not likely to attack a person, and then it pierces and sucks, for it can not bite. Usually it lives under stones and logs, preying upon subterranean insects. Its sting when aroused is severe, but as far as mankind is concerned, it acts in self-defense. The theory that it seeks the lips before plunging in its weapon is not accepted by the scientific."

The statement is often printed that Ingersoll did not believe in a God or a hereafter. On the contrary, Ingersoll, in response to questions, has frequently said: "I do not know that there is or is not a God, but I hope there is." He said the same thing with reference to the hereafter. It is very likely that Ingersoll never countenanced the thought of a hell, and in this there are hundreds of thousands who believe with him, though they probably will not on any other religious proposition. Few people indeed really believe in a hell, and many do not who really think they do.

HENRY CLEWS, who has made his fortune by seeing things before they came, predicts that the automobile will soon take the place of small lines of railroad feeders and of short-haul transportation systems generally. Clews is an eccentric in his habit of thrusting his opinion on things in general on everybody, but he is a man who does not often make the mistake of calling a big thing little or a little thing big. If he says the automobile is a big thing, with big possibilities, so it is.

The fact that both Dewey and Sampson have been compelled to sue the United States government for prize money growing out of the late war may be an unavoidable development under present conditions, but it is rather humiliating to all patriotic citizens. It would seem that legal provisions governing such cases should be sufficiently comprehensive to avoid the necessity for such action upon the part of our naval officers and men.

When the sultan of Turkey wanted a practical man to put in charge of the agricultural interests of his country he sent to the United States, and a man from Iowa got the job. There is a sample of what practical, industrial education will do for a man.

In France the settlement of a dead person's estate first requires the payment of the doctor's bill. In this country the lawyer generally takes every thing in sight.

## Scrofula to Consumption.

Any one predisposed to Scrofula can never be healthy and vigorous. This taint in the blood naturally drifts into Consumption. Being such a deep-seated blood disease, Swift's Specific is the only known cure for Scrofula, because it is the only remedy which can reach the disease.

Scrofula appeared on the head of my little grandchild when only 18 months old. Shortly after breaking out it spread rapidly all over her body. The scabs on the sores would peel off on the slightest touch, and the odor that would arise made the atmosphere of the room sickening and unbearable. The disease next attacked the eyes, and we feared she would lose her sight. Several physicians from the surrounding country were consulted, but could do nothing to relieve the little innocent, and gave it as their opinion that the case was hopeless and impossible to save the child's eyesight. It was then that we decided to try Swift's Specific. That medicine at once made a speedy and complete cure. She is now a young lady, and has never had a sign of the disease to return.

Mrs. RUTH BARKLEY, Selma, Kan.

Scrofula is an obstinate blood disease, and is beyond the reach of the average blood medicine. Swift's Specific

**S.S.S. For The Blood**

is the only remedy equal to such deep-seated diseases; it goes down to the very foundation and forces out every taint. It is purely vegetable, and is the only blood remedy guaranteed to contain no mercury, potash or other mineral substance whatever. Books mailed free by Swift Specific Company, Atlanta, Georgia.
